ORCHESTRA AND GLEE CLUB
Entertain Large Audience at Opening of Commencement Week.

Tuesday evening in the assembly hall at Windham high school the annual concert of the school orchestra and glee club was given. The programme was an excellent one and was enjoyed by a large number of the members of the school and their many relatives and friends. The vocal numbers were in charge of C. H. Caswell and C. C. Holmsted had charge of the orchestra numbers.

The first part of the programme was a duet, "The Planets," by Cabaret, beautifully sung by Mrs. Walter M. Buckingham of Norwich and C. H. Caswell of this city. Mendelssohn's Spring Song was then rendered by the girls' glee club. The remaining numbers in the first part of the programme were rendered by the Windham high school orchestra, with fine effect.

The second part was an excellent rendition of "The Bri King's Daughter," by Gade, the cantata, that met with deserved approval from the interested lovers of music in attendance. The girls' glee club was assisted in the cantata by Mrs. Buckingham of Norwich, Miss Elma Currie of this city, mezzo-soprano; Maurice Waller of this city, tenor; and Director Caswell of this city, bass.

The fine programme was a novel feature for commencement week activities in connection with the school, and gave the public an idea of the musical possibilities to be cultivated and attained by the students who are incited in that direction.

SETTLEMENT OF STRIKE
Desired by Business Men and Others Affected by Silk Mill Disagreement.

A new phase in the strike situation at the Windham Silk company was discussed Tuesday. Representatives of the Textile Workers of America, of which John Golden, the head, among them John J. Cunningham, an organizer, Mr. Golden's representative in the strike, may be more prominently mentioned, has learned that the merchants of the city, as well as the strikers, desire a settlement of the strike in some amicable manner. As a result of conversations between prominent men connected with the silk company and others tending toward a settlement of the question satisfactorily for all concerned, he was in communication with Mr. Golden, who came to Willimantic Tuesday, met members of the strikers' committee and talked the matter over. A meeting was held at 2:30 in the afternoon and another meeting of all the strikers that could be reached was held at 3 o'clock.

Mr. Golden admitted, when questioned, that the parties had not a hand in the matter and desired to have the strike adjusted if possible. President Golden said the strikers had always been willing to meet the officials of the silk company and discuss the matter, but that the officials of the company had shown no disposition to come to any agreement. He mentioned that he had paid lists and the company wanted is come to any arrangement toward agreement the strikers were ready to meet it. He said the best way to settle the strike was to have the officials of the company and the strikers meet and go over the matter. The strikers had rights that should be respected. If this meeting could not be arranged, then the matter of arbitration could be resorted to. He expressed the opinion that if the officials and strikers met together and talked the matter over, an amicable adjustment of the entire new proposition could be effected. Business men and others prominently in the community desire an early settlement of an affair that is detrimental to the best interests of the community.

No Ground for Complaint.
A number of the residents of Chaplin entered complaint to Attorney Samuel H. Harvey, representing the State Humane society, Monday, that A. G. Haugh of the village was neglecting some of his livestock—a horse and some pigs, not properly feeding them. The case was turned over to Humane Agent P. A. Weeks for investigation. Mr. Weeks stated Tuesday that he had personally investigated the matter and there was no ground for a complaint against the man as far as he was able to learn.

Sensible Workmen.
There was a small strike among some of the laborers employed on the new theater building on Main street Monday, over the amount of wage paid the laborers. The matter was adjusted without difficulty and the men went back to work Tuesday.

Petition for Half Holiday Tabled.
The meeting of the mercantile branch of the Willimantic Board of Trade and Business Men's association Tuesday evening was thinly attended, there being but 12 present. The meeting was called to act on a petition from the city clerks for a half holiday on Thursdays during July and August. The interest manifested in the question as evidenced by the absence of the merchants precluded the possibility of any favorable action and the percentage of those present was so small as compared with the total membership that the present did not feel like taking the initiative in the matter. It was voted to table the petition indefinitely.

DANIELSON
Project to Have Voters Rescind \$4 a Day Vote—Shaw-Crumley Wedding—Fine Programme of St. James' School—Getting Playgrounds Site in Readiness.

In response to a petition from the requisite number of citizens, a call for another special town meeting is to be issued by the selectmen of Killingly, the 25th being the date decided upon for the gathering.

The petitioning citizens want this meeting to see if it will be voted to rescind the vote limiting the amount that selectmen may pay teams doing town work to \$4 a day, and to leave with the selectmen the matter of fixing the compensation to be paid for such work. The "4 a day" vote was passed in 1902.

While it has been possible for the selectmen to get all the teams needed during the road at the rate mentioned, it is not at all an easy matter to get team owners to put their rigs at work going scraping and other such wearing work at that figure. There is a feeling among the citizens that the limit be removed so that the selectmen can pay more than that rate when the nature of the work justifies so doing. The removal of the limit, they claim, would not necessarily mean that teams could not be hired in the future at \$4 a day on certain kinds of work.

An attempt was made to get action on this matter at the special town meeting last week, but was prevented on a technicality.

WEDDING.
Shaw-Crumley.
The first church wedding of the month occurred at St. Albans, when Miss Mildred E. Crumley, daughter of Mr. and Mrs. Andrew J. Crumley of the West Side, and Harry Gilbert Shaw, son of Mr. and Mrs. William Shaw of the West Side, were married by Rev. James H. George, Jr.

For the professional the vested choir sang the bridal chorus from Lohengrin, the entrance of the bride party escorted by the choir and with Rev. Mr. George and the ushers, John Day of Fitchburg and Frederick Shaw of Leominster, a brother of the groom, being a particularly pretty feature of the ceremony. Palms and laurel were used in an effective way for the church decorations. The bride and groom were unattended. The bride's gown was of white poplin. For the professional the choir sang O Perfect Love.

Following the ceremony there was an informal reception for the members of the two families and immediate friends at the home of the bride's parents.

Mr. and Mrs. Shaw left during the afternoon for their wedding trip. They will make their home in Fitchburg, where Mr. Shaw, who until a few years ago lived in Danielson, is employed.

Miss Crumley is a graduate of Killingly high school in the class of '08, and came here from her friends, a large proportion of the young people of the borough.

Closing Exercises of St. James' School.
There was a large gathering of parishioners in St. James' school hall on Tuesday evening for the closing exercises given by the children of the parochial school, a pleasing and finely arranged combination of recitations, vocal numbers and tableaux, with a prettily acted and an amusing farce as features. The excellence with which the pupils acquitted themselves was indicative not only of their capabilities but also of the thoroughness of the careful attention had been given in the preparation of the entertainment by the Sisters of St. Joseph, in charge of the school. The affair marked the close of another school year.

Playground Site Secured.
The first substantial evidence of the progress that has been made in providing playgrounds for the young people of Danielson will be had by those who attend the Annual K. S. S. baseball game, a feature of commencement week, to be played on the new ball grounds, leased by the playground committee, Friday afternoon. The field is on the George Danielson farm and is located near what is known as the sandbanks. It may be quickly reached from the footbridge to Riverside and proceeding to Maple street, above the residence of Judge A. G. Bill. Rev. W. D. Swaffield of the committee has been in charge of the preparation of the field and he has had a backstop erected and the playing field marked out. The bases and other field equipment will be here in time for Friday's game.

CONSTANT SOLICITING.
Merchants Soured by Endless-Chain Begging of Children and Grown-ups.
Complaint that is not superficial is heard from business men over the constant pestering that they are subjected to by solicitors, principally children, and young people, for contributions in aid of about every scheme and plan that nimble brains, not always their own, can contrive. A visit to the city streets, where their money. The business men seem to be first choice for picking with this horde of canvassers. They want a dime for this, twenty-five cents for that, fifty cents here, and a dollar there; and the business man, anxious in a small community not to antagonize any interest, digs up the coin for the hold-up assessments, grins, and says "here you are."

As taxpayers, the merchants stand to meet a liberal part of the expense of running the town, and they do so; they must, on objection to a donation occasionally worthy causes, but the daily begging to which they are being subjected is little more in practice than looking the gift horse in the mouth. It costs a business man to try to live as well as it does other people, and it is generally understood that all the money they handle is not profits.

An appeal to parents to investigate carefully and then consider prayerfully any proposition that involves the sending of their children on a tour of the city streets, soliciting money, makes a good plan in Danielson's platform for every day life.

Letters addressed as follows are unclaimed this week at the Danielson postoffice: Fred St. Marie, Henry Heide, Miss Marion, Weares, Miss Annette Blanchette, Mrs. Frank Wilcox, Mrs. E. Crevel.

Monday evening the Bridge Whist club met with Mrs. Oliver Burt at her home on May View avenue. A shower party was given by the members in honor of the coming marriage of Miss Kathleen Fuller of the club. The party was a total surprise to Miss Fuller. The house was attractively decorated by Charles Burch, green, yellow and white being the predominating colors throughout. After whilst had been enjoyed the members were escorted to the Maine house, where an elaborate spread had been prepared by the committee, composed of Miss Helen Wheeler and Mrs. James Carson. The menu comprised: oysters, cold chicken, olives, pickles, coffee and cake, with green, yellow and white ice cream in forms.

As soon as the luncheon was over a large basket, found at the door by the house, was filled with flowers and every description for Miss Fuller. In the center was a dozen tea napkins with her initial hand worked on them, presented to her by the members of the club. EXPENSIVE BACK TALK.
John Bosphekie Threatened Revenge and Got Thirty Additional Days in Jail.

John Bosphekie received a sentence of 120 days in jail when his case had been heard in the city court Tuesday. During the previous night, at about the midnight hour, with a partner who was not captured, he broke out glass in the windows of Thomas Gannon's saloon, on Livery street, presumably with the idea of getting away with some of the brandy refreshments. His capture was the result of the activity of Edward Bosquet, employed near Gannon's place, Bosquet being awakened by the sound of the breaking glass. Officer Cordier arrested Bosphekie after a considerable time had elapsed.

In court Tuesday morning Judge Fuller had sentenced the man to serve 30 days in jail for intoxication and 60 days more for doing injury to the Gannon windows, when the prisoner made a threat of violence against those who had caused his arrest as soon as he was released from jail. For this outbreak Judge Fuller imposed an additional 30 days, teaching the rabid man a needed lesson.

A VALUABLE MAN.
Supt. Amasa A. Holden Comes to Local Schools With Flattering Credentials.

In Amasa A. Holden, who is to come here in the fall as principal of the high school and superintendent of the schools in town, the school committee feel that they have secured a very valuable man.

Principal Holden's record as an educator is an enviable one. He has been in the high school at Woonsocket, from where he is to come to Putnam, for a period of twelve years, the first two years of his term as sub-master and the last ten as principal.

Mr. Holden, a graduate of the Massachusetts Institute of Technology, he has an A. M. degree from Brown university and has taken a special course at Harvard. His high school studies were made at Wellesley, Mass., and at Malden, Mass., from the high school of which city he is a graduate.

While he had other teaching experience before going to the Woonsocket high school, notably at Lincoln Memorial university, Cumberland Gap, Tenn., his most important work has been done in the Rhode Island city.

Mr. Holden's recommendations to the Putnam school committee include letters from the present governor of Rhode Island, from the mayor of Woonsocket and members of the school board in that city, and from many educators in a position to know about his work. All have expressions of exceptional appreciation to set down relative to Mr. Holden, and all agree that he is one of the finest disciplinarians that the Woonsocket high school has ever had. Mathematics is a specialty with the new principal, who is also strong in the teaching of the various subjects and courses that enter into high school work.

His time here will be so arranged as to give him a part of each day to attend to his duties as superintendent. He will visit the schools regularly, keeping in intimate touch with the work being done in all parts of the town.

In Woonsocket Mr. Holden has been an officer of the Congregational church and he has taken an active interest in the dolours of the Y. M. C. A. in that city. He is a hard, earnest and efficient worker, and has been satisfactorily

successful in the fields where he has given his time since taking up teaching.

Mrs. Arthur Loomis of Putnam is the guest of Mrs. William Newbury of Latham street, and will remain until after the races.
